WEEKLY INTERNSHIP REPORT

Name of students: 1. Nazrawit Gemechu   ID:DBUR/1738/12

2. Oliyad Lemma   ID:DBUR/0809/12

3. Samrawit Jarso   ID:DBUR/0808/12

Mentor's name: Mr : Temesgen W.

Department: Software Engineering

Week No: 5___ **Date:** 24-10-2015

Weekday	Activities
Monday	The functionalities we thought we finished last week had a lot of issues when we looked them over so on Monday we spent the the entire day trying to determine where we made a mistake so we could fix it.
Tuesday	On Tuesday we still couldn't determine exactly where we went wrong so we asked for help from our supervisor and he told as to debug and see where the problem is and we spent the day doing that and seeing the flow the application and where it breaks.
Wednesday	On Wednesday we have halfway gone through the code and found some of the errors and tried to fix them along the way while still debugging and trying to find the remaining errors.
Thursday	By Thursday we came to the concluson that our approach wasn't efficient nor effective so we came to the conclusion that it would be best to start the application from the beginning and so we won't come to the same issues as we did before to try the functionalities one by one as we go along instead of all at once. So on Thursday we started from the beginning.
Friday	This day we continued from were we stopped at Thursday and and kept working on our project.

So, as mentioned above we spent the week trying to find and fix the errors and when that didn't work we spent it starting the project from the start and focusing and not making the same mistakes as we did before.
